BS

EXPERIENCE

Full Stack Laravel Developer
Parcel Express
Nov 2025 – Present · Remote · Oman

- Designed and implemented a multi-tenant integration system enabling third-party platforms (Temu, AliExpress, etc.) to seamlessly integrate with the core system.
- Enhanced system security and stability through advanced encryption, API authentication, and comprehensive error handling protocols.
- Built shipment workflows covering delivery-fee, COD and commission calculations, with consistent results across merchant, driver and partner flows.
- Implemented partner-specific mappings and idempotent shipment creation, preventing duplicate shipments on retries and webhook re-deliveries.
- Enforced workspace/merchant data isolation and role-based access across the APIs, and ran external integrations as queued jobs with retries, timeouts and failure handling.
- Kept the platform compatible with both MySQL and PostgreSQL and standardised UTC storage with per-client timezone conversion.

Full Stack Laravel Developer
Aloo
Oct 2024 – Nov 2025 · Remote · Saudi Arabia

- Designed and implemented REST APIs for frontend (React & Flutter), improving response efficiency by 25%.
- Integrated SMS & payment gateways, enabling secure online transactions.
- Built role-based dashboards for admins & vendors, reducing operational workload by 30%.

Full Stack Laravel Developer
Yousab Tech
Nov 2023 – Oct 2024 · Remote · Egypt

- Created an internal system (“Workspace”) that automatically generates new dashboard modules for the backend team, accelerating development speed and reducing setup time by over 60%.
- Developed a dynamic React dashboard capable of connecting directly to any client’s database and auto-detecting modules and input fields from table structures, enabling instant CRUD (create, edit, delete, view) functionality for any new module.
- Developed responsive websites & mobile apps (React, React Native) serving 5K+ monthly active users.
- Built an admin dashboard for content & user management, reducing support requests by 20%.
- Engineered 10+ API integrations, improving system reliability and scalability.
- Implemented a custom email system, increasing customer engagement by 15%.

Full Stack Laravel Developer
Marwan Group
Aug 2022 – Nov 2023 · On-site · Cairo, Egypt

- Created a content management dashboard (Laravel), reducing admin management time by 40%.
- Developed APIs that improved frontend-backend communication, cutting errors by 20%.
- Integrated third-party services (payment gateways, Google Maps), enhancing UX and driving online sales growth by 25%.
- Designed and deployed company websites, boosting brand presence and attracting new client contracts.

EDUCATION

B.Sc. in Computer Science
Arab Academy for Science and Technology (AAST)
Sep 2017 – Jun 2021 GPA 3.30 (Very Good)

Professional Skills Program, 720 hrs (SCE)
The American University in Cairo (AUC)
Nov 2016 – May 2017

SUMMARY

Full Stack Laravel Developer with 4+ years of experience building scalable web and mobile platforms, APIs and third-party integrations, from multi-tenant logistics systems to internal tooling that generates dashboards and CRUD modules automatically. Strong in Laravel, React and React Native, with a focus on secure, maintainable backends that other systems can integrate with.

SKILLS

LANGUAGES
PHP JavaScript (ES6+) SQL C Java

BACKEND
Laravel (advanced) REST APIs WebSockets Queued Jobs Multi-tenant Architecture OOP SOLID Principles

FRONTEND
React.js (advanced) Next.js (mid-level) React Native (mid-level) jQuery AJAX HTML5 CSS3 Bootstrap Tailwind

DATABASES
MySQL PostgreSQL

INTEGRATIONS
Payment Gateways SMS Google Maps Email Systems

DEVOPS & TOOLS
Docker CI/CD (GitHub Actions) Git Postman Apache Server Management

PROJECTS

Portfolio
Created to showcase websites and applications that I have developed or contributed to.

Parcel Express
Logistics services website: played a key role in developing and optimizing both backend and frontend components, contributing to the platform’s growth and competitiveness in the Oman market.

ADC
E-commerce website: full-stack contribution to backend & frontend, improving competitive presence in the Saudi market.

Aloo
E-commerce website: developed backend & frontend modules, enhancing performance and scalability.

Admin Dashboard Demo
Dashboard for managing content, admins, customers and system entities (login available on request).

React Dynamic Dashboard Demo
Dynamic React dashboard for managing content, admins, customers and system entities (login available on request).
